| HCPPs Part B (Health Care Prepayment Plans) | 15 | 104,446 | 141.5 |

NOTES: The Balanced Budget Act of 1997 changed the requirements regarding effective dates of coverage. As a result, the numbers do not include beneficiaries who changed enrollment status in the latter part of each month. Therefore, the total number of enrollees is understated. This understatement will continue for all future months until the report modifications have been completed. As of July 1, 2002.
